M-FIRE AG EX Zone 0 is the latest iteration of our flagship angle flashlight. The lamp generates light at 323 lm and maximum range of 288 m. Powered by four AA batteries, it can operate up to 13 hours. M-FIRE AG EX Zone 0 is IP54 and EX-ATEX certified, which means it is safe to operate in explosion zones. The kit includes a clip for conveniently attaching it to clothing or a harness and a clip for secure mounting.
